

BOLGER BOY BACK AT HOME.

Joyous Family Reunion
When Father Returns
With Him After a
World-Wide Search.

MOTHER IN AN ECSTASY

Her Son Discharged from the
Navy and Returns to Stay—
Father Having Triumphed,
Is Quite Overcome.

(Special to The Evening World.)

TOKERS, N. Y., May 29.—Walter Bolger is back at home. The young man, in company with his father, who had searched every quarter of the globe for the past six months in quest of the missing lad, returned to the family residence near here at dawn to-day and was accorded a most joyous reception. Bright lights shined in every window of the Bolger home, for Mrs. Bolger, the mother of the lad, had been advised of his intended homecoming. Hardly had the prodigal son and his delighted father got into view than the front door of the Bolger residence opened and out rushed the mother, with tears streaming down her face. During the day relatives called and there was a real reunion. The neighbors caught the spirit of the affair and there was general rejoicing in the village. Young Bolger declined to show himself to strangers.

YOUNG VANDERBILT BUYS A BIG ESTATE.

William K., Jr., Acquires 500
Acres Surrounding Success
Lake, on Long Island—To
Build Fine Mansion.

William K. Vanderbilt, Jr., has acquired 500 acres of land at Lakewood, near Great Neck, Long Island, on which he has already commenced to build a magnificent country home. Sixty workmen are busy now laying the foundations for a building 60x140 feet. A one-mile automobile race track is to be laid out on the grounds and there are other features contemplated which will cause an eclipse of all the other great places owned by millionaires on Long Island. For a long time Great Neck has been known to some one as being the property of a young man, a small body of water near the Sound and connecting with it, it is said, by an underground channel. The lake in places is ninety feet deep. Rumor had it that W. C. Whitney was the purchaser and later that Frank Farwell was preparing to establish a splendid gambling palace. It is now asserted positively that young Mr. Vanderbilt is the purchaser. One of the reasons for secrecy is that Mr. Vanderbilt wants to have Nassau County vote him the control of Lake Success absolutely and he was afraid connection of his name with the deal might hinder this scheme. The reported cost of the land is \$250,000. It includes the Success Lake Hotel, a well-known place. The Vanderbilt workmen are now living in it.

POPE RECEIVES BISHOP M'DONNELL IN AUDIENCE.

Denial of Report that Archbishop Keane Was
to Be Appointed to New York Diocese.

ROME, May 29.—The Pope to-day received in audience Bishop Charles M'Donnell, of Brooklyn, N. Y. The statement published by the Daily Mail, of London, May 29, that at the Consistory to be held June 9 the Pope will nominate Archbishop Keane, of Dubuque, Iowa, to succeed the late Archbishop Corrigan, of New York, is without foundation in fact. It appears now to be extremely improbable that the Pope will depart from his customary practice of appointing an Archbishop's successor from among the clergy of the diocese in which the vacancy occurs.

MAD MOTHER PUTS CHILD TO DEATH WITH GAS AND ENDS HER OWN LIFE WITH ACID.

Jacob Fiegnow Returns Home to Find that His Wife Had Murdered
Their Daughter and Committed Suicide.

JACOB FIEGNOW

SCENE OF THE TRAGEDY

THE MOTHER

No more terrible sight could have met a father's eyes than that which poor Jacob Fiegnow was obliged to look upon to-day as he came back to his home after a few hours' absence. Peering through the windows of his locked home he saw the dead figure of his only child lying on its crib, which had been drawn into the parlor. A rubber tube led from the gas jet in the centre of the room to the child's mouth and the odor of gas was bursting through the cracks in the windows. Mad with fear, he forced his way inside to find his little girl really dead, and in the room back her mother—her murderer—dying from carbolic acid, which she had taken after she had snuffed out the life of her little one.

Child Murder and Suicide.
The perpetrator of this shocking crime was Mrs. Rose Fiegnow, of No. 638 East One Hundred and Sixty-first street. She was only twenty-eight years old. Her victim was her daughter, Bertha, a child of six years. Mrs. Fiegnow was alone in the house with her child when her frenzy of murder seized her. She had been up and about the house and little Bertha had been playing as usual, following her mother from room to room. The woman had been acting

strangely for some time, but there was no premonition on any one's part that she meant harm to herself or to those about her. Bertha the Only Child. The Fiegnows were a Russian family occupying the ground floor of the three-story dwelling. They were quiet people. Bertha was the only child. She was vivacious and well liked by the neighbors, all of whom had noticed the mother's great fondness for the little one. Though every one knew the woman was a sufferer from illness, she was not often heard to complain and the husband says she never threatened to leave him. Then he rang the bell. No one responded. He rang several times and then began to wonder. He then peered through the shutters into the front room and was staggered to see his little daughter lying on a cot with a gas tubing from the burner to her mouth. Half-crazed instantly, the man rushed at the door and burst it open.

Doctor Could Not Save Her.
As soon as he realized the awful knot of what he saw Fiegnow rushed out and shrieked for help. Neighbors came running in. Dr. Henschel, of Fleetwood avenue and One Hundred and Sixty-third street, along with them. He bent over the woman and tried to relieve her. She had taken an enormous dose of the terrible poison, however, and she was beyond the doctor's skill. He kept her alive for nearly an hour, working every minute in the hope of accomplishing

something superhuman, but she died. Word was sent to the Morrisania police station and Capt. Price sent detectives to the house at once. They looked over the scene of the tragedy and concluded that Mrs. Fiegnow had taken her daughter to the bedroom, held her while she placed the tube in the little one's mouth, and then stood by until the deadly gas had done its work. When she was sure her child was dead she drank two ounces of the acid and lay down herself to die. Fiegnow's daughter, it was said, had been dead some hours. The child lay on a cot as if she had thrown herself there to sleep. When her mother was dead her father went to her and kissed her and then sank in a dazed manner into a chair. He lay there helplessly for some time before he could reply to questions. Then he got up and walked about until he found a note written by his wife. It was on four pages of a memorandum book she had written for the purpose of writing in Hebrew. The man read it and then went into a fit of weeping.

Quoted from "Misch Clarke."
On a side table in the bedroom was a copy of "Misch Clarke," a novel, by Misch Clarke. It was open and one passage had been marked. It had to do with the death of Misch Clarke to fight for his country. The passage reads: "Father, I am ready to go where you will. May the Lord be glorified. May I watch over your young life and keep your heart steadfast to the cause which is assuredly His." The connection between this sentiment and the crime, if any, is none too plain. After the husband had recovered a little he said his wife had been suffering from nervous trouble and had almost had to take to bed from it. He said she had been gloomy and she thought the child was sick and she thought the child had the measles. She had not talked of suicide, however, he said. He did not say what was in the letter his wife left for him. When he told the police that much the man left the house and the police took the letter to the coroner.

COAL ENGINEERS OPPOSE STRIKE!

Delegates Wait for President
Mitchell at Wilkesbarre to
Request That Order to Quit
Be Rescinded.

(Special to The Evening World.)
WILKESBARRE, Pa., May 30.—Delegates representing the engineers of the anthracite region are eagerly awaiting the arrival of President Mitchell here to-morrow, having been instructed to request President Mitchell to rescind the strike order issued to the engineers, which becomes operative Monday.

There is a determination among the engineers, it is declared, not to strike even though the order is not recalled. Mr. Mitchell will reach here from the West in the evening.

A crowd of strikers to-day attacked teamsters who were hauling culm from a bank at Edwarsville to a mill in this city. They threatened to kill any who returned.

An army of 5,000 coal and iron policemen is now in the anthracite region and the number will be increased to-morrow. Three hundred commissions were issued yesterday and the men are being sworn in to-day, chiefly by the Delaware and Hudson and the Delaware, Lackawanna and Western companies.

BULLET OR BOOMERANG?

The bullet symbolizes the REGAL Shoe. Because it goes DIRECT to the mark. The boomerang typifies most other shoes. Because it reaches its mark by circling around to it.

The "circle" system, differs from the REGAL system, in that it retards style-transmission five months longer, and costs you FIVE PROFITS instead of ONE.

These five profits go to the Tanner, Leather merchant, Shoe manufacturer, Shoe wholesaler, and Shoe retailer.

REGALS reach you direct from "Tannery to Consumer," carrying only one single profit, viz.—the Manufacturer's.

MALARIA An Invisible Enemy to Health

Means bad air, and whether it comes from the low lands and marshes of the country, or the filthy sewers and drain pipes of the cities and towns, its effect upon the human system is the same.

These atmospheric poisons are breathed into the lungs and taken up by the blood, and the foundation of some long, debilitating illness is laid. Chills and fever, chronic dyspepsia, torpid and enlarged liver, kidney troubles, jaundice and biliousness, unhealthy matter collect in the blood current until it becomes so polluted and sluggish that the poisons literally break through the skin, and carbuncles, boils, abscesses, ulcers and various eruptions of an indolent character appear, depleting the system, and threatening life itself.

The germs and poisons that so oppress and weaken the body and destroy the life-giving properties of the blood, rendering it thin and watery, must be overcome and carried out of the system before the patient can hope to get rid of Malaria and its effects.

S. S. S. does this and quickly produces an entire change in the blood, reaching every organ and stimulating them to vigorous, healthy action. S. S. S. possesses not only purifying but tonic properties, and the general health improves, and the appetite increases almost from the first dose. There is no Mercury, Potash, Arsenic or other mineral in S. S. S. It is strictly and entirely a vegetable remedy.

Write us about your case, and our physicians will gladly help you by their advice to regain your health. Book on blood and skin diseases sent free. THE SWIFT SPECIFIC CO., Atlanta, Ga.
